topfence.cy

Cookie policy

In force from 29 October 2026

Cookies are small files a website stores in your browser. This page lists the ones topfence.cy uses and lets you change your choice.

NECESSARY COOKIES

They keep the website working and safe, and need no consent.

- **topfence-session**: keeps a form and its answers together while you fill it in; it expires seven days after your last visit.
- **XSRF-TOKEN**: protects the forms from being sent from another website; it lasts as long as the session.
- **rp_consent**: remembers your choice about the cookies below, for one year.

STATISTICS AND ADVERTISING COOKIES

Only if you agree, the website loads the statistics tools of Google and the advertising tools of Meta. They set their own cookies, such as _ga, _fbp and _fbc, and the website sets rp_ext, which links your visits for these tools. Without your consent none of them is set.

YOUR CHOICE

You can give, change or withdraw your consent at any time, here on this page.
